

Angel Food Cake w/ Peach Topping

1 angel food cake cut into individual slices or center sliced to form two rings (depending on the preferred presentation)

Bake or buy an angel food cake.

Peach topping: Warm on low heat 1/4 cup milk, 4 oz softened cream cheese, 1 tbsp butter and 1/3 cup confectioners sugar. Warm until mixture is smooth. Add 3 cups fresh diced peaches with all their juice (peeling and dicing over a bowl helps retain the juice). Gently blend peaches into the mixture and pour warm sauce over cake. Serve immediately.

Cake can be arranged in individual slices on a serving platter and drench with the peach topping.

This cake can also presented whole with the topping layered in the center and drenching the top or pre-sliced and then drenched with the topping.
