

## **FREEZER PEACH PIE FILLING**

**Fran West**

2 ½ cups sliced peaches

¾ cup sugar

1 Tbsp. cornstarch

1 Tbsp. Minute Tapioca

1 dash nutmeg

Place all ingredients into a bowl and toss until evenly coated and sugar is mostly dissolved. Transfer peaches to a 9 inch foil lined pie plate. Cover with another piece of foil and freeze immediately. Once frozen solid remove peaches from pie plate and transfer to a zip locked bag for later use. When ready to use, put frozen peaches in a prepared crust and bake at 450 degrees for 20 minutes—lower heat to 350 degrees and continue baking another 30 minutes.
